Analysis and Strategy Recommendation

After analyzing medical apps, we found that the majority use **monthly subscriptions, annual subscriptions, and pay-per-consultation models**. Plans like **3-month, 6-month, or lifetime subscriptions** are rarely offered.

Recommendation:

-We propose **adding a 3-months subscription plan with 10% discount**

Monthly Price: \$39

3-Month Standard Price: $\$39 \times 3 = \117

With 10% Discount: $\approx \$105$

Recommended 3-Month Plan Price: \$105 - \$109

We propose **adding a 6 –months subscription plan with 20% discount**

Monthly Price: \$39

3-Month Standard Price: $\$39 \times 6 = \234

With 20% Discount: $\approx \$187$

Recommended 6-Months Plan Price: \$187 - \$190

We propose **adding a Lifetime subscription plan with 60% discount**

Annual price = \$249

Lifetime discount = 60%

First choose number of years (standard = 5 years)

Normal 5-year value:

$\$249 \times 5 = \1245

Apply 60% discount:

$\$1245 \times 60\% = \498

Recommended 6-Months Plan Price: \$498-\$500

Subscription plans:

Monthly: \$39–\$49

3-Months: \$105 - \$109

6-Months: \$187 - \$190

Annual: \$249–\$299

Lifetime: \$498-\$500

Per Consultation:

Consult: \$59–\$69
